## EXPERTISE

## PORTFOLIO

## PROFILE

As a skilled fresher, I have grown myself to develop the necessary skills to help me design and create new ideas from scratch. I have worked my skills to design 3D art for games and background creation through the use of various technical software such as Autodesk Maya, Adobe Substance 3D, ZBrush, Marmoset Toolbag, Photoshop and Adobe Premiere Pro. I, as an artist, have adapted myself to work upon my client's demands at the shortest period of time and with utmost quality of design and art. I also possess a cheerful demeanour with a correct blend of communication skill.
